TATIANA PERETYATKO
REACT DEVELOPER, FULL STACK

Phone: +1 (720) 369-4575
Email: tanya.koshen@gmail.com
Address: Cary, NC
LinkedIn: www.linkedin.com/in/tatiana-koshenskaya

SUMMARY
React Developer with 5 years of expertise in end-to-end application development.
Mastered tasks across the entire application development lifecycle from start to finish, including production and post-production stages.
Increased product value by integrating popular features such as real-time notifications, messenger chat, and customizable design, boosting user experience and market competitiveness.
Committed to staying up-to-date with the tech trends and collaborating effectively in Agile teams for high-quality and timely deliveries.

SKILLS
Programming languages: **JavaScript | Typescript | Python**
Frontend**: React | Redux | Zustand | NextJS | HTML | CSS | MUI | Bootstrap| Tailwind | Chakra UI**
Server-side: **NodeJS | ExpressJS I GraphQL | RESTful APIs | Postman**
Hosting: **Vercel | Netlify | AWS**
Databases/Cloud: **MongoDB | PostgreSQL | MySQL | Firebase | Google Cloud**
Testing**: Jest | React Testing Library | Mocha/Chai**
Version Control: **Git | GitHub**
Project Management: **Agile: Scrum | Kanban | Jira**

EXPERIENCE
Full Stack Developer - *DigitalVertex Enterprises, Atlanta, GA*
June 2020 - PRESENT

● Proficiently created end-to-end applications using React, harnessing its powerful component-based architecture and virtual DOM for building dynamic and interactive user interfaces.
● Developed a highly customizable CRM system, empowering users to personalize up to 70% of the application's elements.
● Leveraged TypeScript's strict type checking and auto completion features to reduce runtime errors and catch issues during development, leading to more stable and bug-free applications.
● By utilizing HTML's semantic markup capabilities, I ensured the accurate categorization and labeling of the application's content, leading to enhanced accessibility and more effective search engine optimization.
● Achieved a cohesive and visually appealing application appearance by seamlessly integrating custom CSS styles throughout the application while combining the strengths of Material-UI (MUI) and Bootstrap frameworks.
● Migrated the application codebase from REST API to GraphQL, improving data efficiency and flexibility.
● Refactored API calls to utilize GraphQL queries and mutations with Apollo Client, resulting in reduced requests and faster response times.
● Resolved critical bugs, ensuring a stable and reliable product with reduced user-reported issues.

- Contributed to the design and implementation of a built-in messenger chat feature, increasing team productivity.
- Collaborated with team members to implement real-time notifications to enhance user engagement and productivity within the CRM system.
- Achieved fewer bugs and issues through comprehensive unit testing using React Testing Library and Jest.
- Provided guidance and support during project onboarding, ensuring a seamless transition for new team members.

Front-End Developer - *Rhenne Trade, Houston, TX*
July 2018 - June 2020

- Designed responsive user interfaces using React and CSS libraries (Bootstrap), improving user engagement.
- Collaborated on code refactoring using Redux, improving code maintainability and state management.
- Actively participated in code reviews and provided constructive feedback to team members, improving the overall quality of the codebase.
- Wrote and maintained comprehensive documentation for the application, including user guides and technical specifications, enabling users and developers to easily understand and utilize the application.

EDUCATION

Colorado School of Mines - *MS*

Moscow State University - *BS, MS*

CERTIFICATIONS

Scrum Fundamentals Certified ('SFC') - VMEdu, ID 743486
